Dear Mentor Teacher,

Thank you for choosing to mentor a student teacher or intern! Brigham Young University appreciates your efforts in helping these students prepare themselves for a rewarding career in the field of teaching.

You have been asked to create a mYlink account to give you an easy way to evaluate your student teacher. Your evaluations are important because they help your student teacher receive high quality mentorings and obtain a job after graduation. They also provide Brigham Young University with useful feedback that can then be used to improve our teacher education program.

This packet will walk you through the steps of obtaining a BYU Net ID and password, registering for mYlink, and using your account to evaluate your student. If you have any unanswered questions, please refer yourself to the contact information below.

We look forward to working with you!

Sincerely,

The mYlink Support Team
